# BRIEF NOTES OF FINANCE

# for the Investor.

puring 1912 Brazil imported foreign merchandise amounting to about \$300,000,me and of this total the United States contributed nearly one-sixth and stood third among the countries of the world. Great Britain and Germany leading, but in the case of Germany the advantage as small. The official statistics show that the United States exports to Brazil were 12.6 per cent of the total imports of that country in 1912, as compared with in 1911, showing a gain of 2.3 per cent. The only other country to increase its relative proportion of trade to Brazil was France showed a small loss in as per cent of Brazil's total imports in 1012, as compared with 29 per cent in 1911.

### Bond Sales in September.

puring the month of September the municipalities in the United States sold notes and bonds aggregating in par value 58,700,134, as compared with \$49,565,646 in seekly "Bond Buyer." Included in these igures are temporary issues, which will be made with these loans included, we ers the six months' period by months esting fact disclosed is the steady decrease in the output of municipals in 1913 over 1912 during April, May, June and July, and the correspondingly big increases in August and September, bringing the total decreace for the six months period down to only \$37,579,214. This sudien change in the trend of the market may be emphasized by adding up the decrease for the first four months, or over

# Recognition of Efficiency.

The passing of the administrative contrel of the People's Gas Light and Coke Company, of Chicago and New York, to Chicago adds another link in the chain of geographical independence which has been gradually developing in the West during the past decade. There is another reneral policy of organizations now to increase of \$76,916. efficiency, and the selection of Samuel Insull, who assumes the administrative control of both properties, is in ine with the times. As a rule combinathrough the influence of stock holdings by compared with the corresponding periods powerful interests, but in this case it is of the previous year, as follows: owerful interests, but in this case it is said that up to the time when Mr. Insul was selected he did not personally own any People's Gas stock, and he wa chosen by the board of directors as a compliment to his ability, instead of any ncial interest in the People's Ga light and Coke Company. The death of anthony N. Brady made possible the new prangement, which gives Mr. Insuil, without having any important financial interest, the power to dominate the policy of companies representing a capitalization in excess of \$200,000,000.

### Mining Dividends.

Dividends for the first nine months of the year amounted to \$54,015,894 for United States mining companies, \$87,213,660 for iron, industrial and holding companies and \$16,664,423 for other North American companies, as reported by "The Engi-neering and Mining Journal." Dividends for September of United States mining ompanies making public reports amount 8,475,567, paid by thirty-one companies; ron, metallurgical and holding companies pay \$13,441,816, and Canadian, Mexican and Central American companies \$1,612,894. This compares with thirty companies payan Mexican and Central American companies. This increase is shown despite a decrease of \$600,000 in Calumet and Hela's dividend of this and last September. The effect of the strike in the Missuri lead region is shown in the 331-3 per cent cuts in Doe Run and St. Joseph lad Company's dividends; Calumet and Heck and Quincy reflect the Michigan disturbances. Grand Central, of Utah, takes this occasion to pay a belated July disbursement, and Bingham-New Haven pays for the first time since July, 1912.

# BOND DOTS.

According to local newspaper reports, Wilmington, Will County, Ill., held an election recently, and the question of issuing the \$12,000 water works extension bonds was carried by a vote of 103 to 37.

W. G. Evans, Clerk of the Board of Education of Stokes Township School District, Madison County, Ohio, will receive proposals until noon on October 15 for \$15,000 51/4 per cent coupon Sub-District No. 8 building bonds, denomination \$500. dated September 15, 1913, and due \$500 each six months from March 15, 1914, to Sep-

Stacy & Braun, of Cincinnati, were the Notessful bidders on September 10 for 18,000 5 per cent 31/2-year average coupon bridge construction bonds of Marietta, Washington County, Ohio.

It is reported that Fort Myers, Lee County, Fla., held an election on September 2, which resulted in the defeat of the Proposition to issue the \$200,000 road and bridge construction bonds.

C. H. Slocum, City Treasurer of Hartford, Hartford County, Conn., wili receive proposals until 2 p. m. October 16 for 1.00,000 44 per cent gold coupon or registered municipal building bonds, denomination \$1,000, and due November 1, 1933.

# CURB ECHOES.

The Utah Copper mine was inspected by Mesers. Hayden, MacNeill, Babitt and ackling last Sunday. They then left for Strada Consolidated, thence to Butte and to Alaska next week. Returning from Alaska they will visit Ray and Chino.

# PUBLIC UTILITY NOTES.

Announcement has been made by the Pacific Gas and Electric Company that it has practically completed up to the 215-Paragraphs of Current Interest foot level the huge monolithic concrete dam in the canyon of the South Yuba River, below Lake Spaulding, in Nevada County, near the summit of the Sierra Nevada, in California. This dam, when completed, will be the largest in the world, 35 feet in height, and it will iming into Lake Spaulding, with the result that the lake will be transformed into a storage reservoir of nearly 100,000 acre feet capacity. Besides being used for irrigation purposes, this water will generate power to the extent of adding something like 190,000 horsepower of electric energy to the Pacific Gas and Electric Company's equipment. It is estimated that at the end of the year construction work on this germany.

percentage, while Great Britain sold only dam will represent an expenditure of about \$6,600,000. When this dam is completed other developments reaching from Bear River to the Auburn ravine will be

### Twin City Rapid Transit Company.

and the David Mayer Brewing Company obtained a judgment against him in 1894 for \$384.

Judge Hough yesterday denied an application to appoint a receiver in bankruptcy proceedings for the People's Theatre Company, of Second avenue and 2! street, and the Wilner-Dielstein Amusement Company, at Houston and Chrystie streets. The judge seld "Nothing but the extremest necessity would induce me to appoint a receiver to run a theatre. In this case the equities are all demed, and I am by no means convinced the petitioning creditors have provable claims. The companies put in answers denying the acts of bankruptcy and assorting that the petitioning creditors did not have provable claims.

Judge Holt has made an order in the bankruptcy case of M. Rosetty, private banker, of No. 114 Liberty street, and No. 197 Stanton attest, with branches in Jersey City, Perth Amboy, Wilkes-Earre, Penn., and Youngstown, Oldo, that a division be forthwith declared and paid on the bajance of the New York fund remaining in the hands of the trustee. The fund was \$100,000 and the expenses chargeable against it were \$22,435.

Grains on Lower Levels—Coffee Active and Advancing.

What business there was in the vheat market yesterday was mainly in the way of liquidation, prompted by continued heavy receipts and a big accumulation of stocks at spring wheat points. The trade in general seemed disposed to await developments, and the close was at a net decline for the day of 1862a. Corn also was easier under liquidation, the final figures being net 14.6% down, after a slight rally near the close. Oats followed the other grains, and eased off under purchases of Canadian by Minneapolts and Toledo.

Activity and nervousness characterized the coffee market, an opening decline of 6 to 13 points, on weakness in Europe and heavy Brazilian receipts, being changed into a net gain for the day of 1892 points at the close. A Havre dispatch claiming that the close as a straing decline of 6 to 13 points, on weakness in Europe and heavy Brazilian receipts, being changed into a net gain for the day of 1892 points at the close. A Havre dispatch claiming that the close were firm. Synthymical and purchases amounts that the close were firm. Synthymical and purchases amounts at the close. A Havre dispatch claiming that the close were firm synthymical and purchases amounts at the close. A Havre dispatch claiming that the close were firm synthymical and purchases amounts at the close. A Havre dispatch claiming that the close were firm synthymical and purchases amounts that the close were firm synthymical and purchases are moderned to a stock of the content of the beans higher.
